ISLEM HAMMEDI

ABOUT ME

Bachelor of Computer Science, specialized in Software Engineering, from the Higher Institute of Informatics and Mathematics of Monastir (ISIMM).

I am passionate about innovative technology and have developed strong skills in programming and project management. I am highly motivated to keep learning and exploring new areas. I am currently seeking a new opportunity to enter the professional world, where I can deepen my knowledge and gain valuable experience

SKILLS

- Programing languages:
  - -c
  - - java
  - -python
  - -React js ,Tailwins css
  - -Node , Express
  - -Java script
  - -plsql , sql
  - -php
- technologies and tools
  - -html,css
  - -git, gitHub

LANGUAGES

- **Arabic** :native language
- **French**: professional capacity
- **English** : professional capacity(B2 level in EF set)

EDUCATION

- Higher institute of informatic and mathematics of Monastir 2021-2022
  bachelor of software engineering
  subjects taught: fundamentals of AI, Big data, web, mobile and distributed application development,
  Virtualization and cloud
- Faculty of sciences of Monastir 2021-2022
  PREPARATORY CYCLE FOR ENGINEERING STUDIES
- Secondary school of Sbikha 2020-2021
  baccalauréat of mathematics

PROFESSIONAL EXPERIENCE

- summer internship and training in artificial intelligence with It Gate training: 2024
  Project topic: Comparison and implementation of deep learning models for object detection.
  Technologies used: Python, Deep Learning (cnn model ResNet-18 architecture),
- End of year project: January-March 2024
  design of a website that is used to manage members of university clubs and the allocation of administrative rights. Methodology used: 2TUP
- Competitor (IEEE Xtreme 48h) October 2024
  Participation in the IEEE Xtreme problem solving competition,
  at ISIMM. Solving complex algorithmic problems using different programming languages where I exploited my thinking and programming skills
- End of study internship With Sac-consulting: February- Mai 2025
  As part of my end-of-study internship, I collaborated with a partner to develop a full-stack web application using React and Tailwind CSS for the frontend, and Node.js with Express and MySQL for the backend. This project allowed me to apply my skills in modern web development, API integration, and database management while working in a team environment.

CERTIFICATIONS

- Certificate of internship with Sac-Consulting May,2025
- Certificate of participation for AI training with ITGate Sousse June,2024
- Certificate of participation in a summer internship with ITGate Sousse . June,2024
- Course Fundamentals of AI on the edx platform July,2024
- certificate of participation: robotics training with CPU October,2023
